CANADIAN AERONAUTICS AND SPACE JOURNAL

Index to Volume 27
1981

Number 1 First Quarter ..... pp 1- 88
Number 2 Second Quarter ..... pp 89-192
Number 3 Third Quarter ..... pp 193-292
Number 4 December 1981 ..... pp 293-412

A

AGARD Announcements 69, 166, 256, 390
Air Cushion Technology Society News, Canadian 274, 406
Air Cushion Vehicle, A Canadian View of the — The Light-Footed Giants: H.S. Fowler . 295
Annual General Meeting Report 278
Annual Report of the Council, 1980/81 181
Atkinson, G. and M.D. Watson: Canadian Directions in Space Science 3
Axisymmetric Bodies at Zero Angles of Attack by Sources Along the Axis, On the Representation of: D.J. Jones 135

B

Beddoes, J.C., W. Wallace and M.C. deMalherbe: A New Approach to the Problem of Stress Corrosion Cracking in 7075-T6 Aluminum 222
Belte, Daumants: Helicopter Icing Spray System Improvements and Flight Experience 93
Ben-Dor, Gabi and K. Takayama: Streak Camera Photography with Curved Slits for the Precise Determination of Shock Wave Transition Phenomena 128
Bernard, J.H.: The CP-140 Aurora: A Case Study in Military Aircraft Procurement... 202
Biological Effects of Space Travel: K.E. Money 195
Black Brant X, The Bristol Aerospace: Canada's First Three-Stage Rocket: H.G. Sevier 233
Book Reviews:
Gossamer Odyssey: Mortin Grosser 71
Measurement of Aircraft Speed and Altitude: William Gracey..... 168
Practical Experiences with Flow-Induced Vibrations: ed. by E. Naudascher and D. Rockwell 168
Laminar-Turbulent Transition: ed. by R. Eppler and H. Fasel 258
Computational Spherical Astronomy: Laurence G. Taff..... 258
Gas Turbine Aero-Thermodynamics (with special reference to aircraft propulsion): Sir Frank Whittle..... 392
Moderne Flugzeugentwurfs — und Steuerungskonzepte Hochschultext: X. Hafer and G. Sachs 392
Ferry Command: Don McVicar..... 392
Botman, M.: Vibration Aspects of Small Turbine Engines in Aircraft Installations.. 41
Broadcast Missions, The Large Satellite Program of ESA and Its Relevance for: H-H. Fromm and B.L. Herdan 11

C

Canada's First Three-Stage Rocket: The Bristol Aerospace Black Brant X: H.G. Sevier 233
Canadian Aerospace Abstracts . 66, 163, 253, 387
Canadian Air Cushion Technology Society News 274, 406
Canadian Directions in Space Science: G. Atkinson and M.D. Watson 3
CASI Log 75, 171, 261, 396
Challenge of Cruise Missile Flight Testing, The: I. Levin 50
CP-140 Aurora: A Case Study in Military Aircraft Procurement, The: J.H. Bernard. 202
Cruise Missile Flight Testing, The Challenge of: I. Levin 50
Curling Stone, The Dynamics of a: G.W. Johnston 144

D

deMalherbe, M.C., W. Wallace and J.C. Beddoes: A New Approach to the Problem of Stress Corrosion Cracking in 7075-T6 Aluminum 222
Dynamics of a Curling Stone, The: G.W. Johnston 144

E

Engine Failure in a Twin Engine Augmentor Wing Aircraft Using the NAE Airborne Simulator, An Investigation of the Recovery from an: D.E. Sattler, M. Sinclair, S. Kereliuk and R.H. Fowler 26

F

F/A-18 Weapon System Development: M.J. Tkach 242
Fatigue Crack Growth Rates in Aircraft Components, Fractographic Determination of: W. Wiebe and R.V. Dainty 107
Fowler, H.S.: The Light-Footed Giants — A Canadian View of the Air Cushion Vehicle 295
Fowler, R.H., D.E. Sattler, M. Sinclair and S. Kereliuk: An Investigation of the Recovery from an Engine Failure in a Twin Engine Augmentor Wing Aircraft Using the NAE Airborne Simulator 26
Fractographic Determination of Fatigue Crack Growth Rates in Aircraft Components: W. Wiebe and R.V. Dainty 107
Fretting and Fretting-Initiated Fatigue, Material/Structure Degradation Due to: D.W. Hoeppner 213
Fromm, H-H. and B.L. Herdan: The Large Satellite Program of ESA and Its Relevance for Broadcast Missions 11
Future Applications of Remote Manipulators in Space: C.G. Wagner-Bartak 17

G

Gas Turbine Hot Section Components: Materials for: The Superalloys: J.P. Immarigeon 336
Glansdorp, C.C. and G.H. Goldsteen: The Navigability of Waterways 307
Goldsteen, G.H. and C.C. Glansdorp: The Navigability of Waterways 307

H

Helicopter Icing Spray System Improvements and Flight Experience: Daumants Belte ... 93
Herdan, B.L. and H-H. Fromm: The Large Satellite Program of ESA and Its Relevance for Broadcast Missions 11
Hoeppner, D.W.: Material/Structure Degradation Due to Fretting and Fretting-Induced Fatigue 213

I

Icing Spray System Improvements and Flight Experience, Helicopter: Daumants Belte .. 93
Immarigeon, J.P.: The Superalloys: Materials for Gas Turbine Hot Section Components 336
Investigation of the Recovery from an Engine Failure in a Twin Engine Augmentor Wing Aircraft Using the NAE Airborne Simulator, An: D.E. Sattler, M. Sinclair, S. Kereliuk and R.H. Fowler 26
Ionospheric Effects on the SARSAT System: G.F. Lyon 327

J

Johnston, G.W.: The Dynamics of a Curling Stone 144
Jones, D.J.: On the Representation of Axisymmetric Bodies at Zero Angles of Attack by Sources Along the Axis 135

K

Kereliuk, S., D.E. Sattler, M. Sinclair and R.H. Fowler: An Investigation of the Recovery from an Engine Failure in a Twin Engine Augmentor Wing Aircraft Using the NAE Airborne Simulator 26

L

Large Satellite Program of ESA and Its Relevance for Broadcast Missions, The: H-H. Fromm and B.L. Herdan 11
Levin, I.: The Challenge of Cruise Missile Flight Testing 50
Liburdi, J. and J. Wilson: Mechanical and Metallurgical Considerations in Extending the Life of Turbine Blades 363
Light-Footed Giants, The — A Canadian View of the Air Cushion Vehicle: H.S. Fowler 295
LN-33 Inertial Navigation System, Operational Testing of the: C. Mendrisky 355
Lyon, G.F.: Ionospheric Effects on the SARSAT System 327

M

Material/Structure Degradation Due to Fretting and Fretting-Initiated Fatigue: D.W. Hoeppner 213
McPherson, W.R.: SARSAT Applications .. 118
Mechanical and Metallurgical Considerations in Extending the Life of Turbine Blades: J. Liburdi and J. Wilson 363
Mendrisky, C.: Operational Testing of the LN-33 Inertial Navigation System 355
Military Aircraft Procurement, The CP-140 Aurora: A Case Study in: J.H. Bernard... 202
Money, K.E.: Biological Effects of Space Travel 195
Morris, R.E.: The President's Message..... 91

N

NAE Airborne Simulator, An Investigation of the Recovery from an Engine Failure in a Twin Engine Augmentor Wing Aircraft Using the: D.E. Sattler, M. Sinclair, S. Kereliuk and R.H. Fowler..... 26
Navigability of Waterways, The: G.H. Goldsteen and C.C. Glansdorp 307
Neemeh, R.A., J.H.T. Wu and P.P. Ostroski: Stability of Normal Shock Reflection from a Concave Wedge-Shaped Wall 376
New Approach to the Problem of Stress Corrosion Cracking in 7075-T6 Aluminum, A: W. Wallace, J.C. Beddoes and M.C. deMalherbe..... 222

O

Operational Testing of the LN-33 Inertial Navigation System: C. Mendrisky..... 355
Ostroski, P.P., J.H.T. Wu and R.A. Neemeh: Stability of Normal Shock Reflection from a Concave Wedge-Shaped Wall 376

P

President's Message, The: R.E. Morris..... 91

R

Remote Manipulators in Space, Future Applications of: C.G. Wagner-Bartak..... 17
Representation of Axisymmetric Bodies at Zero Angles of Attack by Sources Along the Axis, On the: D.J. Jones 135

S

SARSAT Applications: W.R. McPherson .. 118
SARSAT System, Ionospheric Effects on the: G.F. Lyon..... 327
Sattler, D.E., M. Sinclair, S. Kereliuk and R.H. Fowler: An Investigation of the Recovery from an Engine Failure in a Twin Engine Augmentor Wing Aircraft Using the NAE Airborne Simulator 26
Secretary's Letter 261
Sevier, H.G.: Canada's First Three-Stage Rocket: The Bristol Aerospace Black Brant X 233
Shock Reflection from a Concave Wedge-Shaped Wall, Stability of Normal: J.H.T. Wu, R.A. Neemeh and P.P. Ostroski 376
Shock Wave Transition Phenomena, Streak Camera Photography with Curved Slits for the Precise Determination of: Gabi Ben-Dor and K. Takayama..... 128
Sinclair, M., D.E. Sattler, S. Kereliuk and R.H. Fowler: An Investigation of the Recovery from an Engine Failure in a Twin Engine Augmentor Wing Aircraft Using the NAE Airborne Simulator 26
Small Turbine Engines in Aircraft Installations, Vibration Aspects of: M. Botman .. 41
Space Science, Canadian Directions in: G. Atkinson and M.D. Watson 3
Space Travel, Biological Effects of: K.E. Money 195
Stability of Normal Shock Reflection from a Concave Wedge-Shaped Wall: J.H.T. Wu, R.A. Neemeh and P.P. Ostroski..... 376
Streak Camera Photography with Curved Slits for the Precise Determination of Shock Wave Transition Phenomena: Gabi Ben-Dor and K. Takayama 128
Stress Corrosion Cracking in 7075-T6 Aluminum, A New Approach to the Problem of: W. Wallace, J.C. Beddoes and M.C. deMalherbe 222
Superalloys, The: Materials for Gas Turbine Hot Section Components: J.P. Immarigeon..... 336

T

Takayama, K. and Gabi Ben-Dor: Streak Camera Photography with Curved Slits for the Precise Determination of Shock Wave Transition Phenomena 128
Tkach, M.J.: F/A-18 Weapon System Development..... 242
Turbine Blades, Mechanical and Metallurgical Considerations in Extending the Life of: J. Liburdi and J. Wilson..... 363

V

Vibration Aspects of Small Turbine Engines in Aircraft Installations: M. Botman..... 41

W

Wagner-Bartak, C.G.: Future Applications of Remote Manipulators in Space 17
Wallace, W., J.C. Beddoes and M.C. deMalherbe: A New Approach to the Problem of Stress Corrosion Cracking in 7075-T6 Aluminum..... 222
Watson, M.D. and G. Atkinson: Canadian Directions in Space Science 3
Wiebe, W. and R.V. Dainty: Fractographic Determination of Fatigue Crack Growth Rates in Aircraft Components..... 107
Wilson, J. and J. Liburdi: Mechanical and Metallurgical Considerations in Extending the Life of Turbine Blades..... 363
Wu, J.H.T., R.A. Neemeh and P.P. Ostroski: Stability of Normal Shock Reflection from a Concave Wedge-Shaped Wall 376
